**I'm sure you noticed that our Museum parking lot 208 is off limits to non-permit holders, even at night. So, would you please pass that on to your members? They can park in the Euclid parking structure for \$1.25. Euclid parking lot is east of the Museum on Euclid. Just want to avoid tickets and towing.
Thanks, Carol Kliger**

January Topic
Lithic Forensics: A Case of Rock Dismemberment
Bob Patten

During a re-enactment of a rock's demise, the audience will have a chance to discuss what evidence is useful for site interpretation. We will consider physics, strategy, process controls, economics, and more, if time allows. - Bob Patten.

Shown below is an example of Bob's work with the projectile point in the center and the removed flakes on the sides - in reverse order of removal.

Impressive.

Now let's suppose that you like Clovis points. Look on the next page.

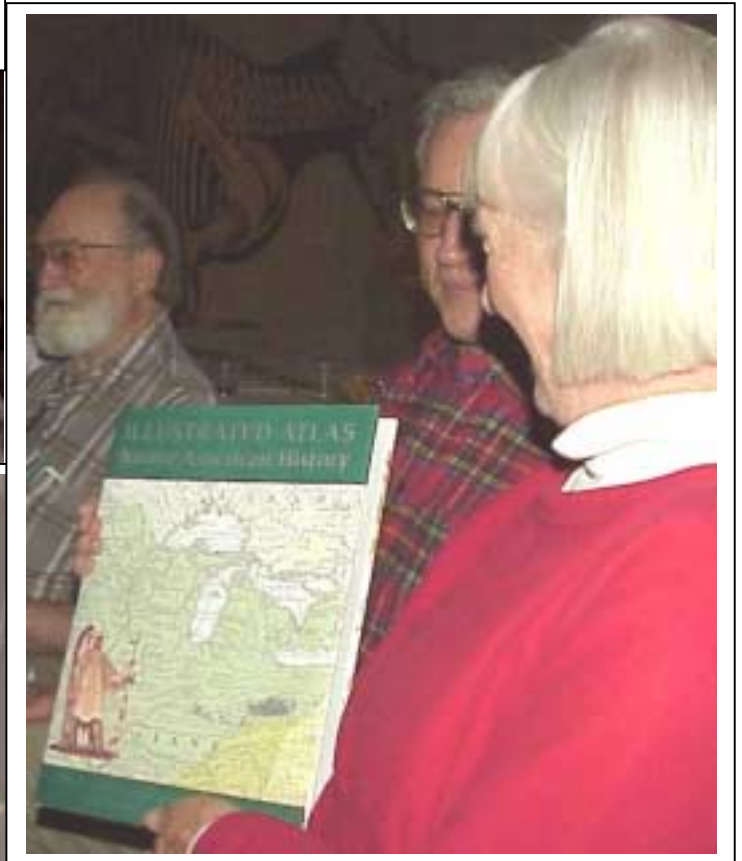

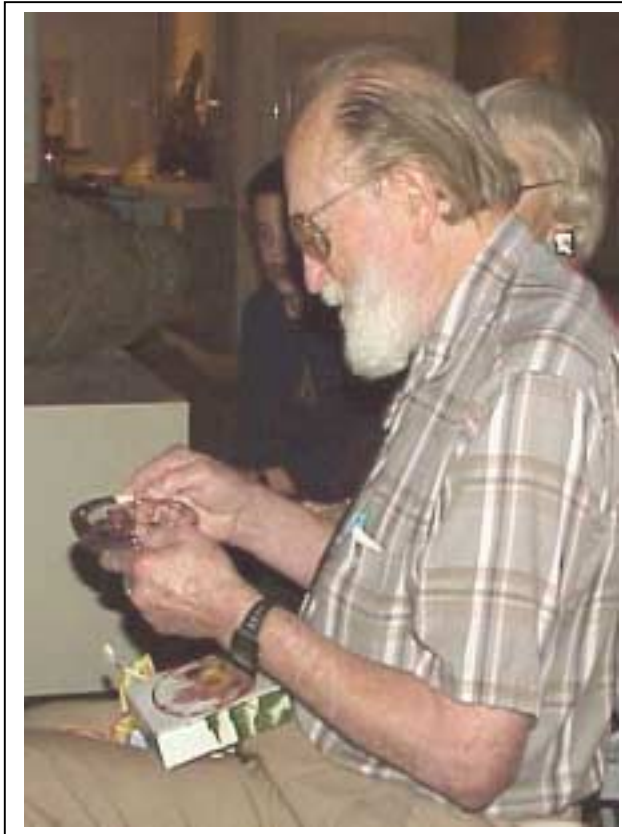

What are these? They look mean.

Annual Holiday Party

The Holiday Party was great fun - lots of fine food and a good White Mammoth Exchange. The following are photographs from the party.

Lab Work at Lowry with Kevin Black

Hi Folks,

The following is the final schedule for lab work at the Museum Support Center. Generally speaking, there was little interest in the last two dates before Christmas, and for evenings in general. All the January dates are on, for both morning (8:30 AM-noon) and afternoon (1-5 PM) sessions.

The full schedule is as follows:

Week 1 of January: Thursday 3, Saturday 5

Week 2 of January: Tuesday 8, Thursday 10, Friday 11, Saturday 12

Week 3 of January: Wednesday 16, Thursday 17

Week 4 of January: Tuesday 22, Thursday 24

Week 5 of January: Tuesday 29

As always, let me know if you have any questions or concerns. And for those of you who have not yet experienced your first day at the Lowry facility, dress in layers--it's a little cool in there on cloudy days.

See you in lab!

Kevin

Second Annual Garage Sale

Mark your calendars and look for that 'wonderful stuff' that you think someone else will treasure. IPCAS will have another garage sale on the third weekend in June. Sale days will be Friday, June 14th and Saturday, June 15th with Thursday, June 13th devoted to pricing of the great items. Hours for the sale will be 8 AM to 2 PM. A barbecue lunch of brats (the German sausage, not bad kids) will be provided on Friday.

If you have items for the sale, please contact Tom Cree at (303) 776-7004 or tomcree@earthlink.net and the brown shoebox will come to retrieve what you have. Tom will store the items in his garage until the sale.

When we price items, it occurs (now and then) that one of the members doing the pricing might like to purchase an item for themselves. After the item is priced, the member can purchase the item then and there. So helping with the pricing has its rewards. We also need help with sales, especially on Friday. It is great fun, good for the club, and a lot easier than getting into the bottom of an excavation pit.

Sale Items

IPCAS will use the Calumet to advertise items for sale for members. Contact the Calumet editor to list anything you would like to sell. Here are some items:

Full size lodge-pole pine bed (headboard, footboard, and side rails) Redwood stain. \$200. Call Cindy Miller at (303) 546-0720.

A Hammond Organ, twin 3-octave keyboards and foot pedals - a very attractive unit. If you would like to have this unit for an extremely fair price, contact Tom Cree.

IPCAS Membership

Listed below are the members of IPCAS. The date that is included is the membership renewal date. If that date has passed (any date in the year 2001), please renew your membership. If you would prefer that your telephone number not be provided in the future, please contact the Calumet Editor.

If there is an error in name, address, telephone number, or membership renewal, also contact the Calumet Editor to make a correction. If you have already renewed and our records are late, please excuse us.
